Career Objective

Motivated Computer Science graduate seeking a Research Intern role in AI/ML. Skilled in Python, Machine Learning, Deep Learning, and problem-solving. Interested in NLP and agent systems, with a strong focus on learning, research, and real-world impact.

Experience

June 2026 – October 2026: Research Intern

ELITE Research Lab

- Complete all assigned research tasks by their due dates to contribute to ongoing projects and cutting-edge industry developments.
- Uphold professional standards and maintain strict confidentiality of all internal communications, methodologies, datasets, and unpublished research.

Education

2025 – Ongoing: Master of Science in Computer Science and Engineering

United International University, Dhaka

Current CGPA: 3.87/4.00

Credit Complete: 15/36 (Planning to go for a thesis-based program)

2019 – 2023: Bachelor of Science in Computer Science and Engineering

University of Barishal, Barishal

CGPA: 3.17/4.00

Thesis: Detection of Postpartum Depression in Bangladesh Using Machine Learning Techniques.

Key Research Interests: Machine Learning, Deep Learning, Generative AI, Large Language Model.

Certification

July 2024 – November 2024: Data Science with Python

Bangladesh Computer Council, ICT Division

- Developed hands-on expertise in Python for data analysis, including libraries such as NumPy, Pandas, and Matplotlib.
- Built and evaluated machine learning models for classification and regression tasks using real-world datasets.
- Gained practical experience in data preprocessing, feature engineering, and data visualisation for insight generation.

Projects/Research

- Detection of Postpartum Depression in Bangladesh Using Machine Learning Techniques. (In Progress).
- Privacy-Preserving Blood Cancer Detection Using Federated, Transfer and Ensemble Learning (In Progress).
- An Early Prediction Approach for MDR-TB: Risk Detection by Proxy Labelling (In Progress).

Skills

Python, Machine Learning, Deep Learning, Generative AI, Large Language Models, Data Analysis & Visualisation, Model Evaluation & Benchmarking, Research & Literature Review, Problem Solving, Technical Writing

Languages: English (Fluent), Bengali (Native)
